Dear Glen,

Just a short note to thank you for the excellent landscaping at our new home. From the first day we met to discuss the project through completion our experiences have been excellent in every respect.

We are absolutely delighted with the way you and your team turned Kristin Heggem's plans into reality. No wonder you were at the top of her list for a to accomplish the work!

Please feel free to use us as referrals, we would be delighted to tell our story.

Best regards,
